About us

Our team Dehustle Garages started the journey in April 2022 focusing on aspiring tech individuals to skill them with the latest technology knowledge. This later evolved into two divisions as

Dehustle Garages for Startups

“A great platform for students with startup mindset”

Dehustle Garages for Skillups

“An exclusive platform for students who likes to get mastery in their interested fields”

Sixth page

What we do

As an initiative for this we started conducting a special event for college students.

“Chai With Dreams ”

A club exclusively for transformative youths with dreams who are seeking a platform to grow their skills and startup ideas. We team up the students interested in different fields and guide them to build their dream startups.
